- Never put wrists or feet through the handles or attached leashes.
- Never put feet, hands or the head between the platform and the yacht or the fixing point.
- Read and understand the owner's manual before use.
- Use at your own risk!

PRODUCT INSTRUCTIONS AND WARNINGS

Maximum fun and safety are important to us.

To reduce risk of injury or death please follow these rules

Equipment & Safety:

- Check the YACHTBEACH platform and connections for loose fastenings, cracks, chafing or any other damages before each use. Also check linen, vests and accessories. Equipment with signs of use could cause injury and should be replaced immediately.
- Observe the applicable federal and state laws. Be aware of local hazards and inherent risks.
- The owner is responsible for safety and proper use of the platform.
- For the safety of all people always check wave and wind conditions.
- Do not use the platform under the influence of drugs or alcohol.
- To consider the safe distance be aware that:
 - Quick access to a person in the water from the beach is possible;
 - A distance to the shore even an inexperienced swimmer can cope with;
 - Distance within a zone supervised by rescue staff or an area marked as bathing zone.
- Remove sand, dirt and salt water after use. Do not use aggressive or abrasive cleaning products. The platform may only be rolled together. Please roll up only in dry and clean condition! Pay attention to the correct rolling direction when packing → always roll towards the valve. Use the enclosed bag for storage.
- Maintain the PVC of the platform with appropriate products. Regular care and cleaning guarantees longer pleasure with your product. The artificial leather cover should only be removed from the platform during extra cleaning or renewal. Each removing of the extra strong velcro strap might reduce the velcro effect.
- The artificial leather top is resistant to UV, saltwater and chloric water, also tear resistant and waterproof. Beware of biro and non-colourfast clothes (jeans). Those are hardly almost impossible to remove from the material. Do not use sharp or pointed objects.
- To clean the artificial leather top soapsuds is suitable also as special care products for imitation leather.
- For the right treatment of PVC only use suitable PVC cleaners and care products.
- If you have questions about the product or these instructions, please contact us!
